

## Self-declaration

## for producers of agricultural biomass (without CAP-Conditionality)

Agric	ultural	piomass producer:
Stree	et:	
Posta	al code,	city: Country:
NUTS	52-regio	n*
on t	he sust	ainability of biomass pursuant to Revised Directive (EU) 2018/2001.
Recip	oient (fii	rst gathering point):
Grou	p mana	ger (if deviating):
		and delivered biomass of the harvest year, which is explained in more detail under item 1, fulfils the requirements Directive (EU) 2018/2001 and if applicable the REDcert²-requirements; the relevant verification is available.
(Plea	ase che	ck the items that apply.)
1		The declaration applies to all biomass / crop types (e.g. rape, wheat) produced on my farm.
İ	or	The declaration is submitted for the following types of crops (please list):
-	or	The declaration is made for the following agricultural residues or harvest residues (please list):
		Following soil management or monitoring practices to mitigate negative impact on soil quality and soil carbon stock by harvesting agricultural waste and residues are applied on the land:
		Compliance with Article 29 (2) of Revised Directive (EU) 2018/2001 is monitored at
_		Areas to be excluded, land consolidation (item 2):
2		The biomass derived from arable land that was already arable land before 01.01.2008. Furthermore, it does not originate from areas worthy of protection (Art. 29 of Revised Directive (EU) 2018/2001) that were converted into arable land after 01.01.2008. If permissible land-use changes were made after 01.01.2008, the respective areas were either explicitly excluded under item 1 or the resulting emissions were taken into account in the context of our greenhouse gas calculations (default values cannot be used).
3		The biomass originates from land within protected areas (only nature conservation areas - no water conservation areas) where farming is permitted. The requirements for protected areas have been complied with.
4		I meet the requirements of the REDcert-EU scheme document "Scheme principles for the production of biomass, biofuels, bioliquids and biomass fuels" in its current version.
5		The documentation on the location of the biomass cultivation (verification by means of polygon or comparable proof of the area via field blocks, parcels or plots of land)
		$\Box$ is available to me and can be viewed at any time <b>or</b> $\Box$ is kept by the FGP (if applicable group manager) of the biomass supplied by me.
6		For the calculation of the greenhouse gas accounting, the default value (Art. 31 of Revised Directive (EU) 2018/2001), the officially approved estimate or the NUTS2 value shall be used, where available and permissible.
7	REDcert <sup>2</sup>	Documentation can be provided that this biomass meets the REDcert <sup>2</sup> scheme requirements. I fulfil the requirements of the REDcert <sup>2</sup> document "Scheme principles for biomass production in the food industry" in its current version.
2018/2 well as	001 have l auditors re	leclaration, the agricultural producer acknowledges that auditors of the accredited certification bodies may verify whether the relevant requirements stipulated in Revised Directive (EU) seen satisfied. It should be noted that the auditors of the certification bodies may be accompanied by a competent authority who monitor their activities. In addition, REDcert employees as cognised by REDcert must be granted the right to conduct a special audit or a witness audit. Furthermore, the agricultural producer acknowledges that his name and address will be registered union database (UDB) for the purpose of traceability of feedstocks.
locat	ion	date

 $^*$ NUTS2-regional designation if known, to be filled out by the first gathering point if applicable
